

Marion Harland's Endorsement OF Royal Baking Powder.

[Extract from Marion Harland's Letter to the Royal Baking Powder Co.]

I regard the Royal Baking Powder as the best manufactured and in the market. It is an act of simple justice and also a pleasure to recommend it unqualifiedly to American housewives.

The returns from all but ten counties show that Governor Jones has a safe majority of 25,000. The other counties will not materially change the result.

When the Heart is Affected

By Rheumatism, or any of the muscles near that organ, it is like tampering with an electric wire, for death may come at any moment. If life is worth \$5, go to the druggist and get Dr. Drummond's Lightning Remedy, or send to the Drummond Medicine Co., 48-50 Maiden Lane, New York, and they will send you a large bottle by prepaid express. It is not as quick as electricity, but it will save your life if you take it in time. Agents wanted. w-2t.

STANFORD'S ILL LUCK.

Another Fine Stallion Lost By the Disease Now Epidemic on Palo Alto Farm.

SAN FRANCISCO, August 4.—Senator Stanford's stallion Sport, eight years old, record 2:22 3-4, died of pneumonia and inflammation of the bowels. The disease of Palo Alto seems to be epidemic, and many of the horses are coughing. Bad water is supposed to be the cause. Nearly all the thoroughbreds at Palo Alto have been turned out on account of the disease.

Encouraging Words and Signs.

Chairman Harry, of the National Democratic Committee, sends forth encouraging words in the declaration that the differences which may have existed in the party prior to the Chicago convention have now disappeared and that the effect of the letters and telegrams he is receiving from the leaders is "Place me where I can do the most good and I will give my best services." This feeling, we are glad to see, is finding practical illustration in Virginia. We notice that wherever Democratic meetings have been held in the State the leading men, and for that matter the masses of the party have, regardless of whatever opinions they may have entertained prior to the Chicago convention, had an eye single to the triumph of the party. If there are any sulkers among the true Democracy they keep to their tents pretty closely. The disposition—and it is a disposition born of patriotism—is to follow the example of conciliation set by Mr. Cleveland. In this policy and in the wide-spread recognition that the force bill is the paramount issue of the campaign, there is the assurance that Virginia will give a splendid account of herself in November.—Richmond, Va., Dispatch.

PRESS POINTERS.

N. Y. Herald: The only way to keep boys out of gutters and mud puddles is to dress them in old clothes.

Memphis Commercial: Mr. McDowell will probably know better in the future than to go lion-hunting with a squirtgun.

Appeal-Avalanche: Mr. Cleveland may not be an Apollo Belvedere, as the Republicans assert, but he hasn't as mean an eye as Mr. Harrison.

Atchison Globe: After people pass a certain age they begin to talk less about poetry and more about how awfully hard it is to save their money.

Texas Siftings: A Nevada hunter spent three months looking for a grizzly bear, and the man's relatives have spent three months looking for him. They think he must have found the bear.

Atlanta Constitution: A local preacher in North Georgia has put up the following sign on the outside of a meeting house: "Keep politics out of the church unless the preacher is running for Coroner."

Belfast Age: This is the season of the year when the farmer goes out to examine the mowing machine and comes into the house with two fingers missing, and reports to his wife that the cutter-bar is all right.

Patent medicines differ—one has reasonableness, another has not. One has reputation—another has not. One has confidence, born of success—another has only "hopes."

Don't take it for granted that all patent medicines are alike. They are not. Let the years of uninterrupted success and the tens of thousands of cured and happy men and women, place Dr. Pierce's Golden Medical Discovery and Dr. Pierce's Favorite Prescription on the side of the comparison to which they belong. And there isn't a State or Territory, no—nor hardly a country in the world, whether its people realize it or not, but have men and women in them that're happier because of their discovery and their effects.

Think of this in health. Think of it in sickness. And then think whether you can afford to make the trial if the makers can afford to take the risk to give your money back, as they do, if they do not benefit or cure you.

The poisonous Acids

In the blood should be taken up and removed by the Liver and Kidneys, but these organs get out of order—fail to do their work, and the result is Rheumatism. There are a thousand remedies for the Liver and Kidneys, but there is only one cure for Rheumatism, and that is Dr. Drummond's Lightning Remedy. A large bottle may be had at the druggists, or will be sent to any address on receipt of \$5. That is the price of a cure, and any one who is having an argument with the Rheumatism will feel fully repaid by the first dose. Drummond Medicine Co., 48-50 Maiden Lane, New York. Walter Bridges, Athens, Tenn., writes: "For six years I have been afflicted with running sores, and an enlargement of the bone in my leg. I tried everything I heard of without any permanent benefit until Botanic Blood Balm was recommended to me. After using six bottles the sores healed, and I am now in better health than I ever have been. I send this testimonial unsolicited, because I want others to be benefitted." aug. 1-wk-sun-1 mo.
